Camp Life

Camp Hyrule was a Online Camp that run 24 hours a day, from Monday August 24 1998 to Friday August 28 1998. It was TOTALLY awesome! It is hosted by Nintendo Of America (NOA) and was host this year to many hundreds of campers. There were contests and fun activities and these are some of the submitted artwork and other excellent artwork submitted to me by friends from the Camp. Camper Count has grown to 1050 now! (A new cabin was built)

I can safely say that Camp Hyrule 98 was a really excellent thing. I suggest checking it out every summer @ www.nintendo.com And check out my Face Painting and Cabin Flag Design contest sections! After the camp was over, I spent a few days collecting pictures from people.

One Thing that I remembered from this year is everybody tried to hack into NOA HQ to raid the counselor's rooms. C'ya online some time!

Young Yoshi was quite precocious,
though his breath was extremely hetrocious.
Eating fire flowers,
and shells of all colors,
made him expel gasses most ferocious!

Unknown, Cabin 17

There was an NOA named Mike
Who stole from a moogle a pike
It fell on his toe
So we called him a Shmo
And he changed his name to Ike

RPDragon3

We all survived the first night,
even though nothing went right.
The E-Mail's messed up,
the links aren't up.
I guess we blame Travis allright!

Neosabre, Cabin 7

There once was a cabin of 1 and 7
They thought they were all in Camp Hyrule Heaven
Everyone thought their cabin names were bad
It made everyone mad
And now have all logged off and went to 7-11

On the diving board,
The lake glistens and shimmers,
All is most peaceful.

JLPBOND007, Cabin 20

The moon light is bright,
Illuminating the lake,
Beautiful camp night.

Giggas, Cabin 13

fire pops and cracks,
mystical, magical, nice,
because i am ice

Zack, Cabin 8

Hot dogs are real good,
I brought Marshmallows with me,
I share them with friends.
